Highlights

Root

Root

A perfect solution for the bathroom of your dreams

To help you create your dream bathroom, our Root Collection is designed to enhance your space in a smart and modern way.

Specially created so that you can design the bathroom you desire, our collection offers a wide range of product sizes and types to allow for greater choice over colour combinations, units, handles and more.

Root

A style that shapes the bathroom

The Root Collection offers two different design choices that harmonise with modern bathroom systems designed to suit all needs and taste.

A seamless look

The Root Round taps, mixers and furniture provide a holistic look with soft lines. The simple design and glassy smooth surfaces help the bathroom cabinets stay dirt-free and be easily cleaned. While the natural wooden drawer cabinets harmonise nicely with the collection's colour palette, they go beyond the expected by adding distinctive detail to your bathroom. This collection combines perfectly with Zentrum and Integra washbasin units and WC pans.

Root

A clear vision

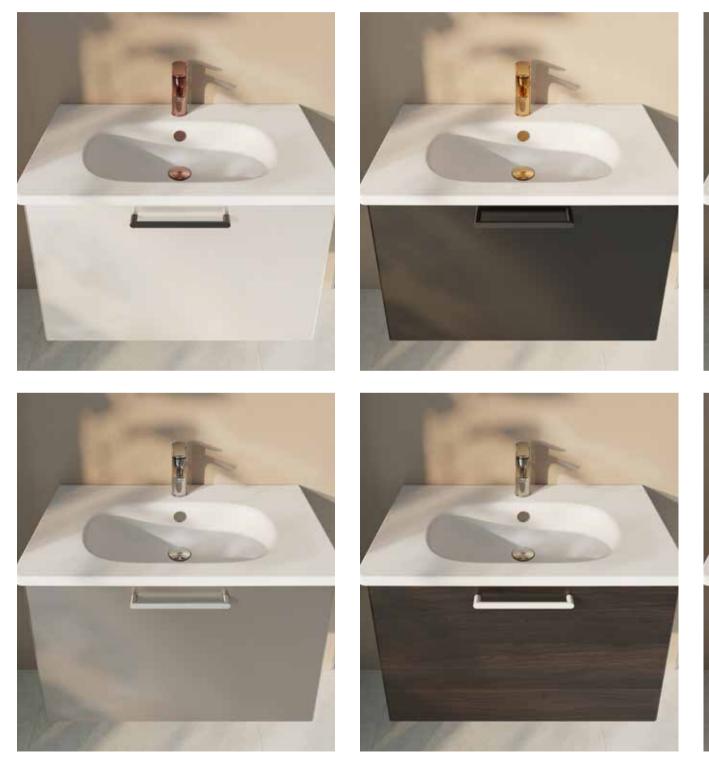

The Root Square Collection offers a clearer look with geometrical tap, mixer and furniture designs.

The furniture in this collection appeals to those who want to bring the warmth of wooden tones into their bathrooms. Bathroom cabinets in light and dark wooden tones create a stylish and natural contrast with the anthracite drawers. This collection combines perfectly with Zentrum and Integra washbasin units and WC pans.

Root Elegant colours

The Root Round Furniture Collection perfectly completes the bathrooms with high gloss white, high gloss anthracite, high gloss Sahara beige and glossy pearl grey.

The Root Square Furniture Collection, brings the relaxing effect of wood into bathrooms with walnut and natural oak colours.

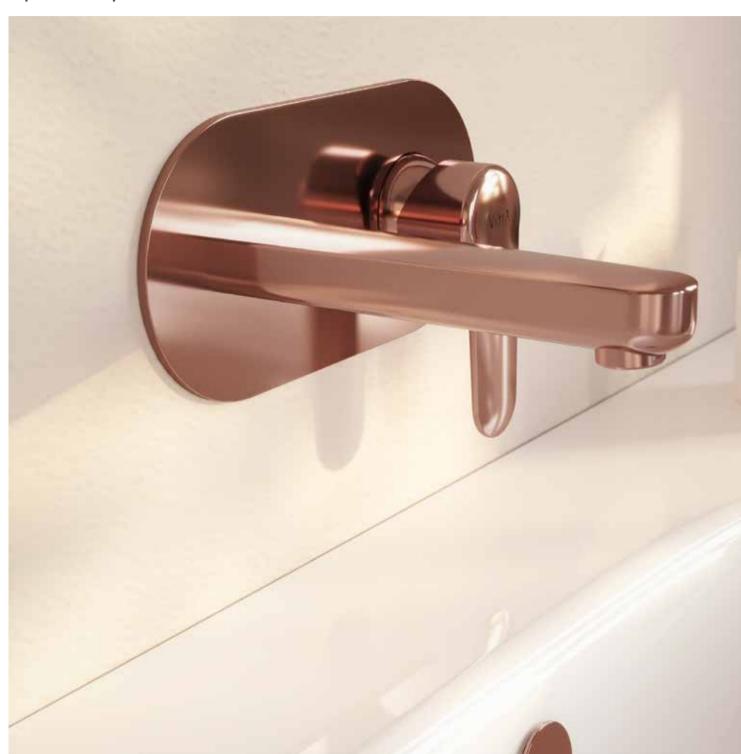

Handle options come in black, chrome and white, reflecting the collection's holistic and minimal approach to design.

The mixers come in chrome, gold, copper or brushed nickel colour options to complete your bathroom furniture to perfection.

Root

A perfect complement

Taps and mixers appeal to different tastes and usage preferences by offering flexibility in design for washbasins, WCs and showers with a range of sizes, styles and colours.

They retain their minimalistic design with both curved and sharp lines, while being distinguished with special colour options.

Each piece in the collection is coated using a special technology to preserve its colour for years.

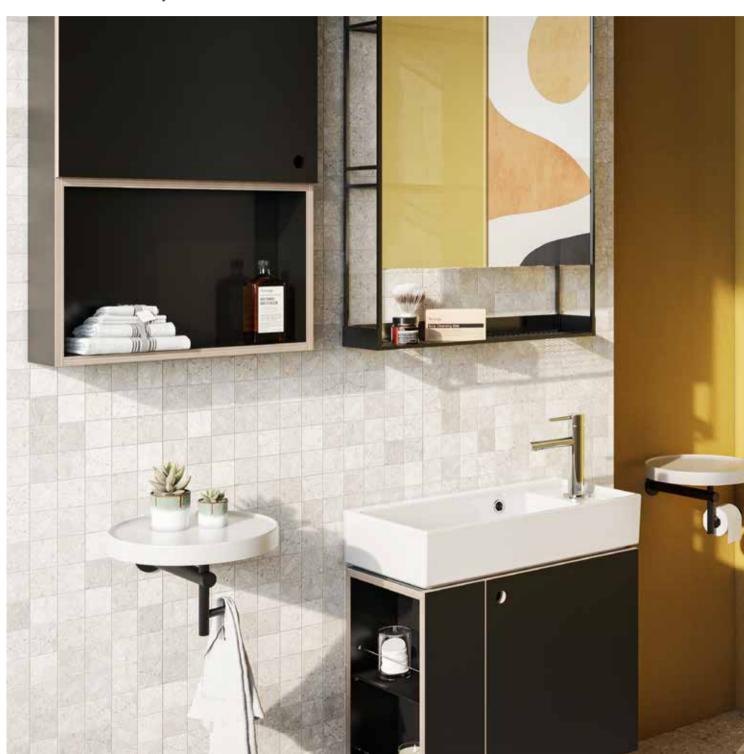

ArchiPlan

ArchiPlan

Smart solutions for lay outs

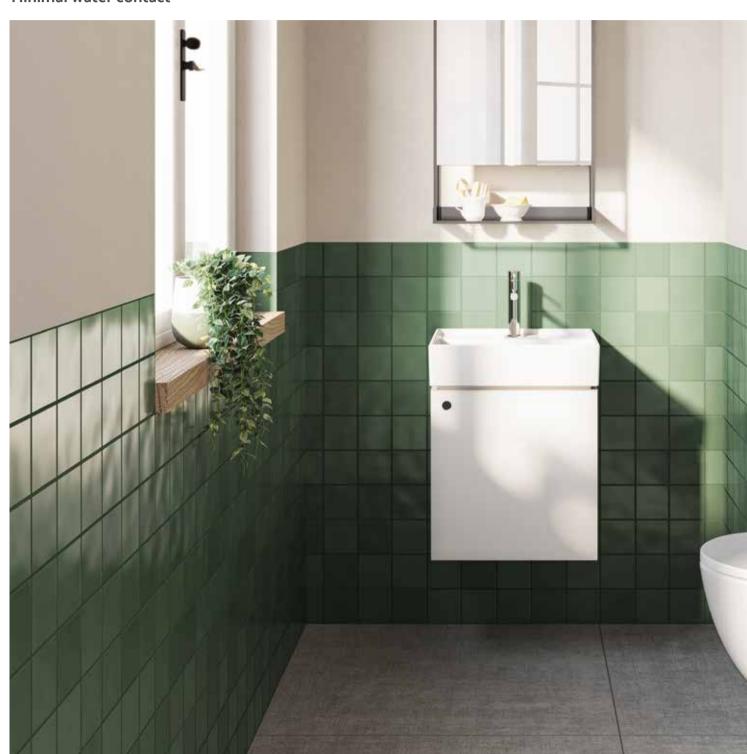

Every project is unique with different needs. To meet these needs, ArchiPlan Collection was carefully designed by Design Studio VitrA. An ideal solution for homes, hotels, restaurants, cafes and bars, especially those with smaller bathrooms. This collection of bathroom furniture, sanitaryware and accessories offers smart, durable solutions to enable seamless planning.

ArchiPlan

Minimal water contact

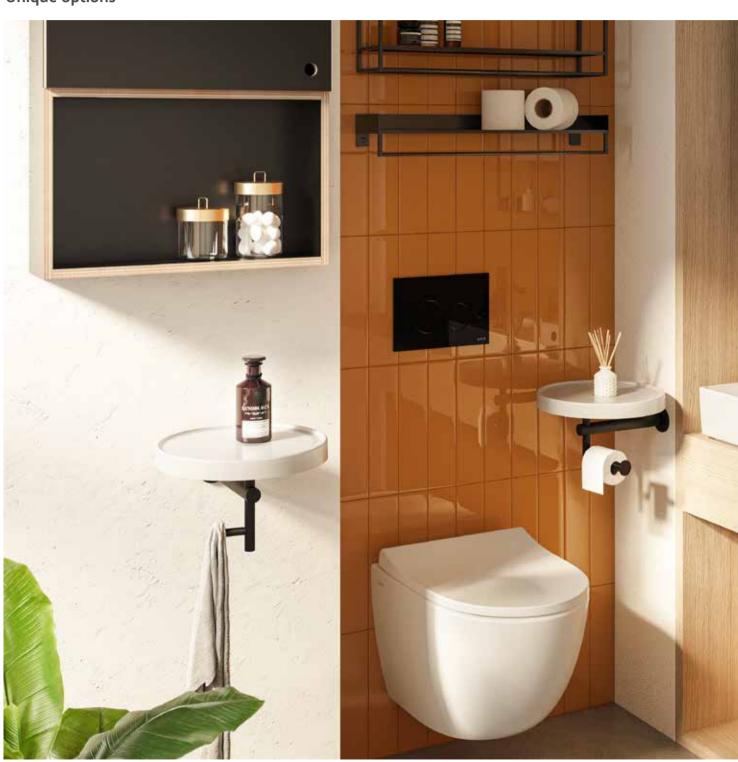

Designed with a water and moisture resistant plywood furniture finish, this collection is hardwearing and durable without compromising on aesthetics or functionality.

The minimal gap between the washbasin and the bathroom furniture provides extra protection, preventing water damage to the furniture.

ArchiPlan

Unique options

Featuring stylish open and closed storage options, ArchiPlan stands out with a wide range of designs, modules and colour options. With black, taupe and white choices, it helps create either a cosy or cool atmosphere.

Planning is made easy for smaller spaces with width options starting from 45 cm wide with a 38 cm depth, along with 60 cm and 80 cm widths with a 28 cm depth.

ArchiPlan

A wide choice of washbasin

The vanity basins stand out as being visually distinctive, offering an efficient space solution. The washbasin units with a double-mixer in one basin offer ideal solutions for communal areas or for larger families, again saving space.

Built with precision and simplicity, the washbasins with a metal pedestal meet the needs of various spaces without compromising on style.

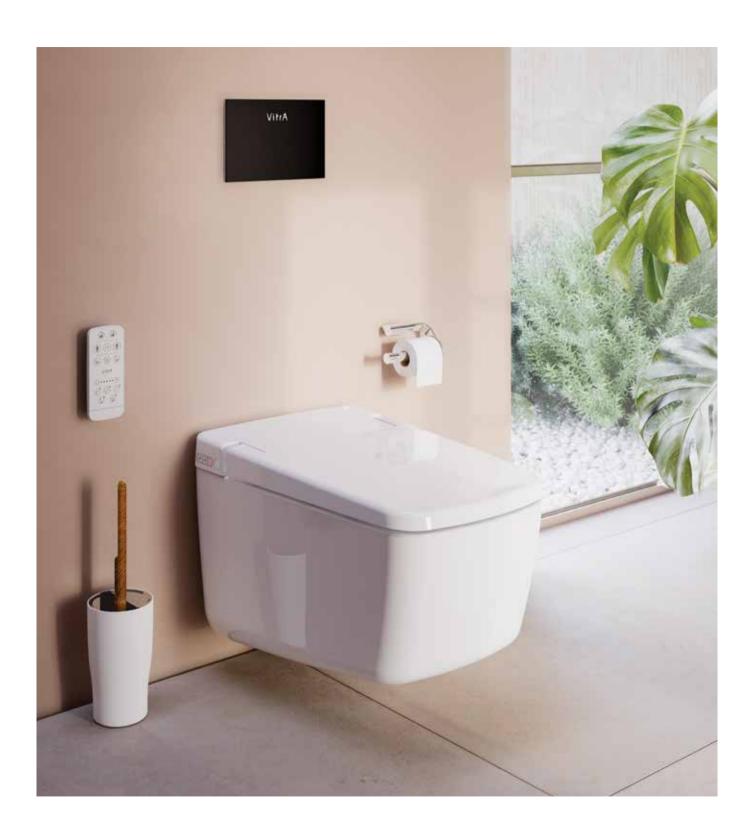

With four different sizes (45 cm, 60 cm, 90 cm and 120 cm) and options with or without drawers, they offer a wide range of stylish choices for both small and large spaces.

Sento Kids Collection

Sento Kids Collection

Bathroom solutions for beginners.

The VitrA Sento Kids Collection focuses on toilet usage at two main milestones in the personal development of children: three to five and five to six years. Specially designed ergonomic products for these periods aim to transform the toilet experience into a safe, hygienic, and natural process.

VitrA Hygiene

lon-rich technology that inhibits the growth of harmful bacteria

VitrA Hygiene, which coats all VitrA ceramicware, inhibits the growth of harmful bacteria by 99.9%. By disrupting the cellular structure of bacteria that cling to the surface during use, this proprietary glaze prevents them from proliferating into a colony.

Tests in accordance with the national and universal ISO 22196, JIS Z 2801, ASTM E 3031-15, and TSE 13420 protocols have verified the efficacy of VitrA Hygiene against gram negative (Escherichia coli) and gram positive (Staphylococcus aureus) strains.

The VitrA Hygiene glaze coats all external and internal surfaces prior to firing in a process that ensures lifetime VitrA Hygiene protection for VitrA ceramic sanitaryware even under the most intense usage conditions.

Fewer chemicals and better hygiene with VitrA Hygiene

Bacteria growth	Equally dirty surfaces	12 hours later	24 hours later

Sanitary ware and complementary products icon guide

Water saving

Developed by VitrA with special bowl structures and low-flow internal mechanisms, the 2,5/4 L water conserving WC pan provide efficient flushing with less water and are certified for lowest water consumption by EU standards. When used together with VitrA concealed cisterns, these WC pan can reduce water consumption by up to 70 %.

Green building certification

These products fulfill Green building certification (LEED, BREEAM and DGNB) criteria with their environmentally-friendly features including lower environmental footprint, water, conservation and the use of local materials, as well as life cycle assessment (LCA), environmental product declaration (EPD) and sustainable forestry (FSC), certificates. They are recommended for projects aiming for a Green building certification.

Special needs

VitrA bathroom products designed to accomodate seniors and people with special needs are wheelchair accessible and provide enhanced convenience in the bathroom.

Rim-ex

The smoothly attractive rimless WC pan Rim-ex prevents germ proliferation and offers superior hygiene thanks to its innovative design. Tests show Rim-ex is 95% more hygienic as compared to standard WC pans.

Easy installation

Easy and quick installation with innovative applications.

VitrA Clean

Limescale is persistent in most bathrooms. VitrA Clean technology is a special double-glazing process that makes washbasins, WC pans and bidets water repellent. No harsh chemical cleaning agents are needed to keep them beautifully stain-free for years.

VitrA Touch-Free

Controlled by a built-in sensor, the VitrA Touch-free Technology ensures hygiene in bathrooms by providing to control products touch-free, thus reducing the risk of cross contamination of pathogens.

Designed by Christophe Pillet

Aesthetic touches to bathrooms.

Memoria washbasins introduce a whole new look in the bathroom with their sharply delineated outlines, exquisitely slender forms, and smooth and glossy surfaces.

Stunning washbasin and WC pan designs in a variety of colours available with polished or matte glazing are among the pieces that add distinction to Memoria Black.

- A range of colours available with polished or matte glazing.
- Faucet islands in the basins increasing wet space functionality.
- Comfortably wide and ergonomic washbasins and Rim-ex WC pans.

İstanbul

Designed by Ross Lovegrove

Excellent combination of fluent forms and fine lines.

Ross Lovegrove has created a new bathroom for the Istanbul series with a sophisticated approach inspired by nature. The bathroom's outstanding combination of fluent and sculptural forms with fine lines testifies to VitrA's mastership of production technology as well as Lovegrove's unique approach to technology and materials.

With their innovative forms and alluring lines, the ceramic units and auxiliaries of this new bathroom suite further enhances the fabulous ambiance of the series and creates a whole new user experience.

Elegant pieces achieve an impressive harmony with the fine lines of the Istanbul series. New generation washbasins with metal pedestal and countertop options feature minimalist, yet striking, details. Moreover, the compact form and unique design of the new generation urinal adds pure stylishness to the series, especially with their concealed installation option.

Plural

Designed by Terri Pecora

Shared intimacy

Designed by Terri Pecora in collaboration with Design Studio VitrA, Plural offers the feeling of a vintage living room, inspired by the iconic mid-twentieth century look. Light and airy furniture is creatively embedded into the bathroom environment, introducing a welcoming domestic space where users can share time with others.

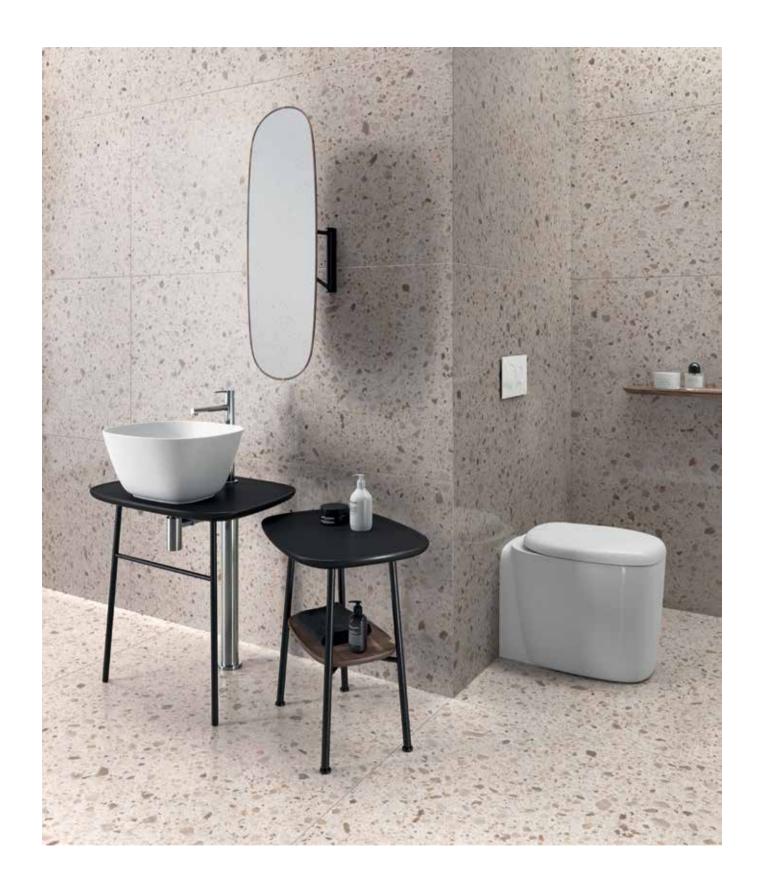

Plural's refined design language creates an atmosphere of sensual luxury. With an aesthetic mix and match of forms, finishes and colours, it brings objects and people together in a delightfully harmonious bathroom environment.

Voyage

Designed by Arik Levy

A space for a peaceful mind

Designed by Arik Levy in collaboration with the Design Studio VitrA, Voyage is a system offering new possibilities for a peaceful mind. Motivated by the premise that time spent in the bathroom is not just a physical experience, but rather is an interval, Voyage creates a space where the mind and body meet, where the emotional and spiritual aspects of an individual's existence are stimulated.

Understanding that this most human personal experience deserves an individualised space, the product range offers the tools to customise this area and enhance the spiritual experience.

Outline

Ceramic virtuosity.

A simple design shaped with round lines presents an attractive bathroom feature. Outline washbasins created with durable cerafine material offer exciting design freedom. Modern, authentic and charming, Outline washbasins come in 5 different forms: TV, oval, square, pebble and round, and in 5 colours: matte black, matte mink, matte taupe, matte white, and white.

Distinctive design and durable material.

The Outline series is characterized by distinctive design and Cerafine material that gives a new look to bathrooms. Stronger, finer, more modern and more aesthetic.

Modern, authentic and charming, Outline washbasins come in 5 different forms –TV, oval, square, pebble and round, and in 5 colours – matte black, matte mink, matte taupe, matte white, and white.

Designed by Claudio Bellini

Brave simplicity

Designed by Claudio Bellini in collaboration with Design Studio VitrA, Equal truly offers a bathroom with character. Simplicity must be treated as the outcome of a brave sophistication, and as a design approach, it is the human shortcut to creating equilibrium within the clutter of an urban environment. This is the balance Equal creates by welcoming diverse needs and desires.

Frame

Clear thinking revealed

A new expression of the modern bathroom that perfects both the performance of each function and the visual appearance. The result is the enrichment of the expressive potential of the bathroom, enabling personalization and the creation of a deeply satisfying space.

Authentic design and functionality are connected in one collection. All the well-thought details that make the Frame unique are at the forefront. With a colour chart collection composed of black, white-oak andbeige and modern design language of thin edges and sleek lines, this enables users to express their style in the bathroom area.

Frame

Geometric minimalism.

The innovative and modern design of Frame gives a striking new look to washbasin collection. Frame countertop washbasins stand out with their geometric form and fine design.

<sup>Pallet quantities are for container pallet (98x114 cm)
10 years warranty is offered only for ceramic sanitary ware product.
All ceramic products of the series (except urinals) are applied VitrA Clean as default.</sup>

Designed by Matteo Thun

Singular sophisticated design.

The soft yet elegant lines of Water Jewels Washbasins and their exclusive colour options add originality and sophistication to bathrooms of every style.

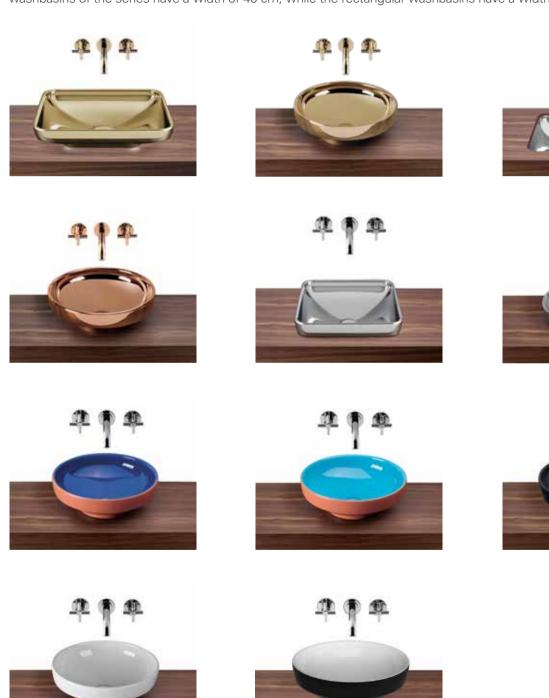

Water Jewels washbasins are available with platinum, gold and copper coloured rims.

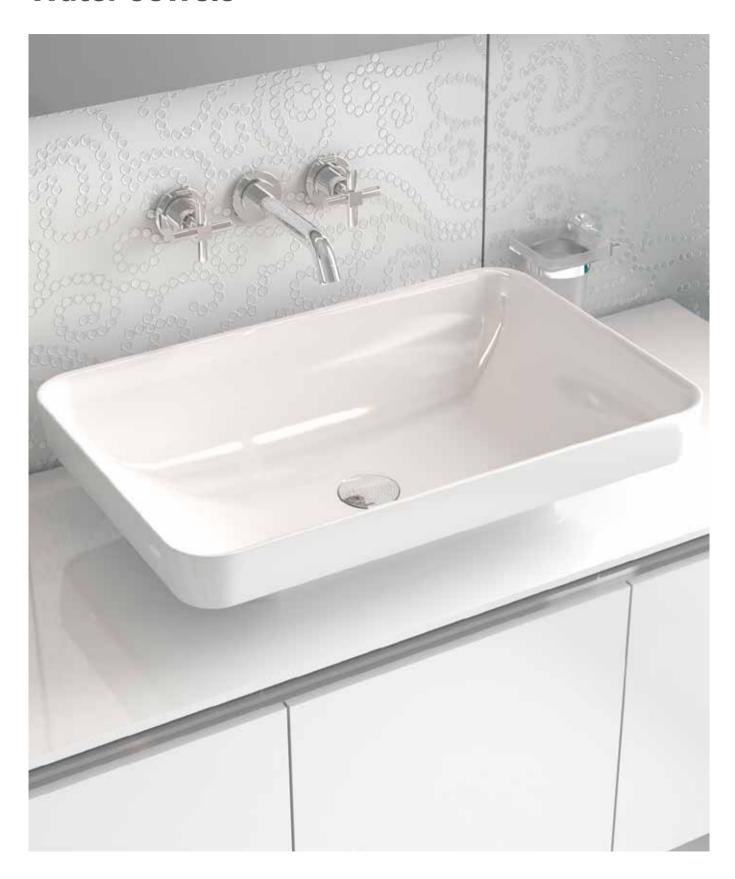

The Water Jewels Series washbasins give you the opportunity to choose freely. The round and square washbasins of the series have a width of 40 cm, while the rectangular washbasins have a width of 60 cm.

Designed by NOA

Determines today, sets the vision for future.

Minimalist designs add modern touches to living spaces. Metropole provides extensive storage space and stands out for smart functionality in tastefully restrained forms. These modules are designed primarily for your comfort. You will be able to shape them according to your needs.

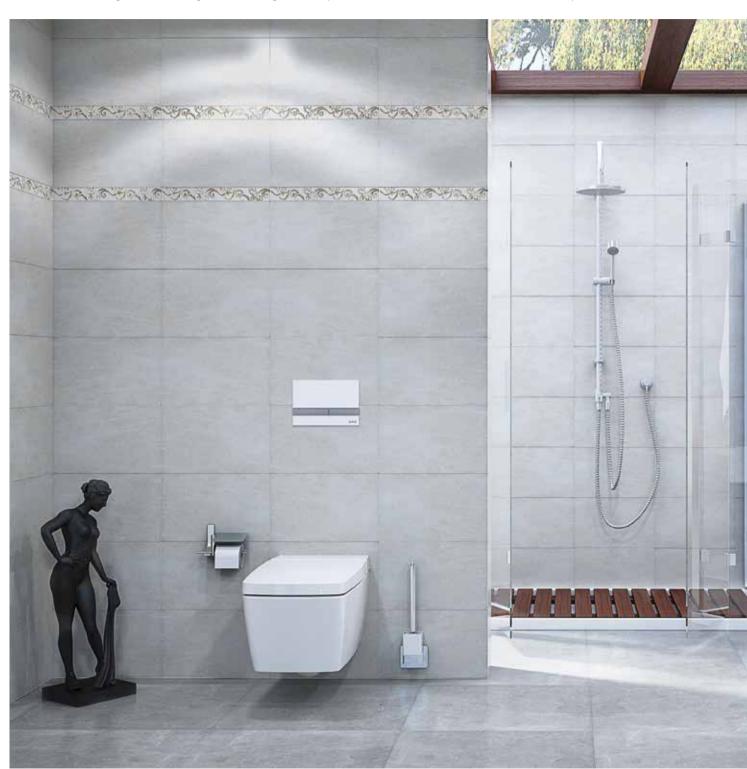

[•] Aria Collection is offered in X03 White colour only. • 10 years warranty is offered only for ceramic sanitary ware product. • 2 years warranty is offered for WC seat, bidet / urinal lids.

Washbasins for every need.

Washbasins, standing out with their geometric design, can be placed under the counters or used as counter-tops.

Wall-Mounted

Integra Hidden Siphon System

Under-Counter

Small touches add aesthetics to design. The ceramic washbasins of Metropole possess ceramic siphon covers, while Infinit washbasins possess siphon covers made of Infinit material.

Designed by Pentagon Design

Refined and restful.

Nest represents high-quality design which is available to everyone in their bathroom regardless of bathroom size. With a wide range of functional products designed along new generation modularity, Nest serves the needs of every member of the family. Ergonomic features transform a bathroom to a pleasurable space. Nest yields practical solutions that offer family sized comfort. Lines are pure and soothing, solutions "considerate" and "attentive" to real needs.

Furnitured washbasins in 60x35 cm sizes specially designed for narrow counters integrates perfectly ... Due to the special form that prevents splashing water makes the use of a dry countre space.

WC pan design that complements the Nest series. Water-saving WC pan is ideal for large families. At the same time WC pan hidden mounting system and hanged feature provide conceptual integrity and ease of cleaning. Built in interval tap offers the possibility to mix hot and cold water for bidet. The Softly-closing WC pan Lid in particular the assurance of a safe and quiet operation for families with children.

Concealed fixing installation of the WC pan provides visual integrity and ease of cleaning. The water saving WC pan is ideal for large families, and parents will love the soft closing WC seat for its safe and silent operation.

With VitrA Fresh feature, the liquid cleaner tank on top of the Nest WC pan adds detergent to the flushing water, maximizing hygiene and freshening the air with every flush. Thermostatic stop valve integrated to the WC pan allows users to mix hot and cold water coming from the bidet nozzle and fixes the water at maximum 38 degrees.

Common sense, uncommon bathroom.

The stunning design of Sento Collection is both charming and practical, meeting the individual needs of each bathroom. Sento's various modules present diverse and exclusive solutions for every bathroom to make them cozier and tidier.

The collection offers various colours and forms for different tastes and preferences. Both mirror cabinets and standard mirrors offer an LED illumination feature.

Large and deep vanity basins prevent water splash and ensure comfortable use.

In addition to their modern designs, Sento washbasins offer a functional washbasin experience with deep bowls, a large vanity area and back rim features.

Washbasins in different sizes provide ideal solutions for both large and small bathrooms.

Slim WC seats and Slim cistern lids are just two of the innovations offered by Sento WC pans. The Sento WC pan's soft and pure lines create a precise and elegant harmony with whole series and especially with Sento washbasins.

Bathroom solutions for beginners

The VitrA Sento Kids Collection focuses on toilet usage at two main milestones in the personal development of children: three to five and five to six years. Specially designed ergonomic products for these periods aim to transform the toilet experience into safe, hygienic, and a natural process.

Shift

Designed by NOA

Simply functional.

Designed in collaboration with German design studio NOA, the curved lines and deep basin lend a simplistic and beautiful bathroom collection. The wide variety of washbasins allows stylish bathrooms in every size and design.

Shift

Shift Rim-ex WC pan is easy to clean with its channel-free internal bowl design.

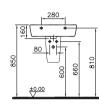

Shift provides users the opportunity to design bathrooms with complete freedom. Your imagination will be set in motion as Shift's modular furniture forms and adaptability surpass stereotypes. A large selection of modular furniture is available that can be used freestanding or combined with washbasins.

Natural simplicity

Nuo washbasins have elegant, functional and minimalist lines. All Nuo washbasins have been redesigned for a more modern look and provide precisely the right combination of depth, shape and inclination to promote the maximum flow of water to the waste area. This prevents build-up of residue on the bowl surface making it easier to keep clean.

Geo

Geometric harmony.

Geo washbasins have been redesigned for a better functionality keeping the original forms. Oval and rectangular forms revive with Geo washbasins. With geometric lines, Geo washbasins adapt to each and every bathroom.

Designed by NOA

Total harmony for your bathrooms.

This range provides contemporary style, durability, and excellent value across a wide range of products in a variety of sizes. S20 is also easy to fit, and offers a choice of one or two tap hole options for extra flexibility.

Washbasin compatible with pedestals	397

VitrA Clean

Washbasin, WC pan, bidet

37 EURO

Thanks to Vitra Clean technology, water grains move in spherical shape, and provide easy cleaning by carrying the dirt from the surface.

Dirt does not stick to the surfaces where VitrA Clean technology is applied.

It can be easily cleaned with a soft cloth for daily cleaning. If desired, a general purpose cleaning agent may be used.

It can be applied on any product regardless of colour and feature.

Applicable to all ceramic sanitary ware products except pedestals, cisterns, urinals, squatting pans, shower trays and sinks.

Faucets icon guide

Unified Water Label

Unified Water Label indicates the water consumption level of faucets. Class A rating means maximum water saving with the same high level of comfort.

Green building certification

These products fulfill Green Building Certification (LEED, BREEAM and DGNB) criteria with their environmentally-friendly features including lower environmental footprint, water, conservation and the use of local materials, as well as life cycle assessment (LCA), environmental product declaration (EPD) and sustainable forestry (FSC), certificates. They are recommended for projects aiming for a Green Building Certification.

Water conservation

Maximum comfort is ensured with minimum amount of water thanks to the special system used for faucets.

Energy conservation

The grey band on the cartridge can be used to set an upper limit on water temperature, saving energy by avoiding unnecessary heating.

No limescale silicon nozzles

The specially designed silicon aerator discharges any lime build-up at the spout with a single touch.

BluEco

With the cartridge that moves to the left at 90 degrees, it saves energy by supplying cold water instead of warm water when the faucet is turned on in the mid-position.

FlowControl

Water saving control function that ensures intentional increase to the high flow.

SafeTouch

Internal body design creates an isolation layer between the warm water and body that prevents the contact of warm water to body. In this way, body surface is never too hot to touch.

Practical installation

Ease of manuel installation, without requiring any tools

Designed by Christophe Pillet

Combining black with chrome.

Elegant and modern Memoria faucets by the world-famous French designer Cristophe Pillet feature a dash of black in the series' double-knob models – created for refined individuals who know how to make a profound statement with just a subtle touch.

Designed by Design Studio VitrA

Silent gracefulness

Created by Design Studio VitrA, grace shapes the Origin Collection's minimalism. A systematic approach that complements and underlines the bathroom atmosphere, Origin is a meeting point for mixers, accessories, shower systems and counter solutions. Subtle lines, sleek designs and unmatched colour alternatives create a wealth of choice in sanitary ware, and lead to a truly customisable bathroom environment.

AquaHeat Thermostatic

Safe and comfortable for all family members.

AquaHeat mixers featuring VitrA's advanced thermostatic technology ensure safe and comfortable use in both showers and bathtubs. The safety button is especially ideal especially for children and elderly people, because it prevents water temperature from rising above 38°C. The Flow Control button controls flow rate to provide water savings up to 35%. Safe Touch technology offers a safer and more enjoyable shower by preventing the mixer body from heating up.

The right diverter knob, if turned towards the front, releases the water and diverts it to the hand shower. Turned backward, the knob releases the water and diverts it to the main spout.

Temperature

Safe Touch

n Flow Control

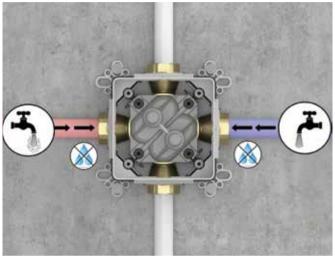

V-Box

New generation solutions that are handy and elegant.

With its user-friendly and innovative properties, V-Box offers a handy and elegant solution for built-in bath/shower and shower mixers. Compliant with Suit, Nest Trendy, Pure and X-Line series, V-Box can also be used as thermostatic bath/shower and shower mixer.

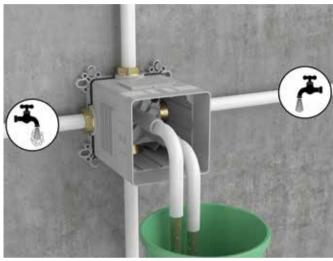

V-Box is easy to install on plasterboard and it provides superior protection to ensure perfect functioning. V-Box provides a high flow rate at the lowest noise level.

Impermeability test

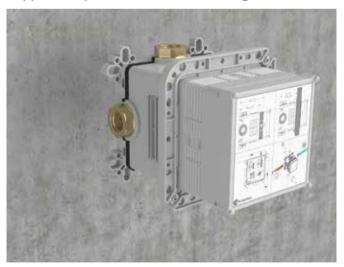

Ensures that V-Box is mounted correctly and tightly to prevent leaks.

Installation cleaning

Allows you to clean out debris that might accumulate in pipes during assembly.

Gypsum plate wall mounting

Special design enables easy mounting on gypsum plate walls.

Humidity protection

Additional sealing cuff protects the wall from humidity.

Shower sets	631-636

Shower systems icon guide

Unified Water Label

Unified Water Label indicates the water consumption level of faucets. Class A rating means maximum water saving with the same high level of comfort

Green building certification

These products fulfill Green Building Certification (LEED, BREEAM and DGNB) criteria with their environmentally-friendly features including lower environmental footprint, water, conservation and the use of local materials, as well as life cycle assessment (LCA), environmental product declaration (EPD) and sustainable forestry (FSC), certificates. They are recommended for projects aiming for a Green Building Certification.

Water conservation

Maximum comfort is ensured with minimum amount of water thanks to the special system used for faucets.

No limescale silicon nozzles

The specially designed silicon aerator discharges any lime build-up at the spout with a single touch.

Easy-to-clean

Chroma-tech spiral can be easily cleaned thanks to its single-part smooth surface.

Easy mounting

It can be easily mounted on different points of hole thanks to the movable connection part on sliding hand shower sets.

Shower systems

VitrA Shower systems, being compatible with all bathroom mixers, add a completely different dimension to the shower experience with their rainfall feature. The Shower columns where the hand-held shower, the shower head and the router are brought together in a single body, complete the aesthetic line of the series.

Usage Conditions for Thermostatic Products

- * All products are designed for only mains water.
- * All thermostatic products are adjusted according to the pressure of 3 bar which is applied to two sides.

 * Thermostatic products can not be used with unpressurized heaters like solar-powered heaters, and so on.

 * Suitable for heaters which have minimum 18 kw-15000kcal/hour power.

More durable, more practical and more aesthetic.

Unified Water Label

Unified Water Label indicates the water consumption level of faucets. Class A rating means maximum water saving with the same high level of comfort.

Energy Saving

Blue Eco cartridge which works with 90 degree angle, prevents unnecessary working of your combi boiler by giving only cold water when opened in the middle position. Thus, it saves more energy.

Maximum Hygiene

With its high hygene standards, all the areas that the water touches are produced with materials which are hygenic and harmless to human health in VitrA faucets. They protect to color, taste and the smell of the water in its natural form.

Adjustable Cartridge

VitrA faucets provide extra energy and water saving thanks to its cartridges with temperature and flow limiters.

Easy Cleaning

VitrA faucets, can be cleaned by a little touch thanks to its special aerators with silicon fiber. Clean aerators always provide smooth water flow and extend the product's life.

Moving Aerators

VitrA moving aerators offer feasibility to change direction of the flow with a single touch. It flows the water wherever desired and it is compatible with different sizes of washbasins.

VitrA

More durable, more practical and more aesthetic.

Flow Variety

VitrA offers three different flow option to meet with user expectations. Standard, natural and rectangular water flow alternatives create different experiences and provide water flow forms in harmony with design lines.

Size Variety

VitrA, with its wide product range for different usage and installation needs, offers a rich size variety to meet the needs of every bathroom design.

Long-lasting Colors

Compate to regular coating, VitrA provides ten times more durable and long lasting facial coating options thanks to its PVD coating technology

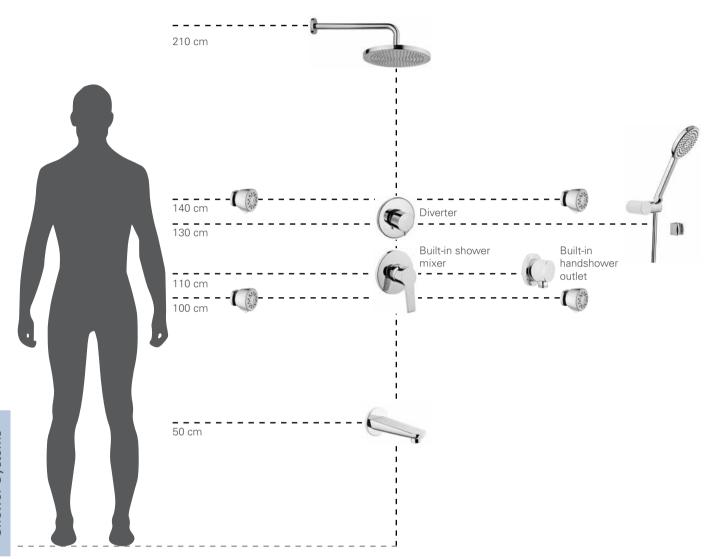

Variety of Styles

VitrA bathroom faucets bring together the most innovative designs and products of different designs which will meet the changing tastes, styles and expectations

Built-in bath/shower mixer - Suggested montage dimensions

^{*} These dimesions are given for finished shower floor.

Built-in bath/shower mixer - Combinations

- Built-in bath/shower mixer with 2 ways diverter.
 - First way to spout.
 - Second way to showerhead.
- This combination is available for following series:
 Nest Trendy, Matrix, Sento, Q-Line, X-Line, Flo S, Minimax S, Dynamic S, Fold S, Solid S

- Built-in bath/shower mixer with 2 ways diverter.
 - First way to spout.

Combination 4

- Second way to showerhead.
- Handshower diverter on spout
- This combination is available for following series: Matrix, Sento, X-Line, Q-Line, Flo S, Minimax S, Axe S, Dynamic S, Fold S, Solid S

- Built-in shower mixer with has one way.
- 3 ways diverter should be used for showerhead, handshower and spout combination.
- Built in handshower outlet should be used since bath spout has no handshower outlet on.
- This combination is available for following series:
 Q-Line, Flo S, Minimax S

- Built-in shower mixer has one way. It cont be used with a handshower by selecting a bath spout with hondshower outlet.
- This combination is available for following series: Sento, X-Line, Q-Line, Flo S, Minimax S, Axe S, Solid S, Fold S

Bathroom accessories icon guide

Load-resistant

Tested for rigidity to withstand weights upto certain limits.

LED-lit

Economic, long-lasting illumination with LED lighting.

Focus mirror x2

Double magnifying.

Focus mirror x3

Triple magnifying.

Stickmaster

Special double-sided acrylic strip fixes products firmly in place without having to drill the wall for long durations.

Custom size option

In addition to the standard size, product can be made to order at technically expedient sizes.

Switch button

Switch operated light can be turned on or off.

Horizontal-vertical use

Product can be set up horizontally or vertically as desired.

Bathroom accessories icon guide

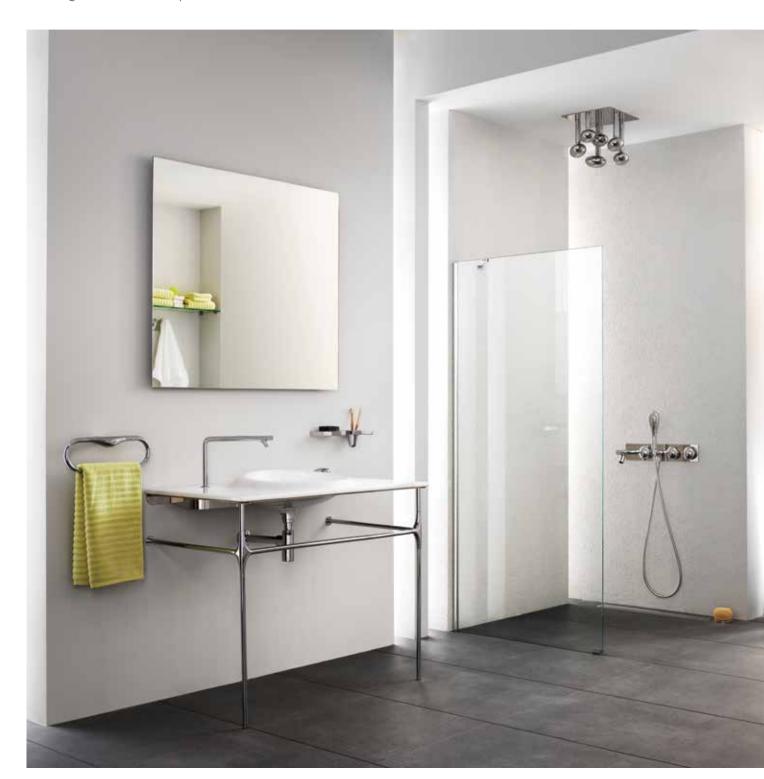

Soft-close
Special hinge for silent and soft closing.

Aesthetic and organic forms.

Lovegrove signed the Istanbul series fittings complete with aesthetic accessories. Offers gold and chrome options.

Eternity by Sebastian Conran

Smart and elegant design suitable for every bathroom.

This accessories series created by Sebastian Conran boasts elegant, creative and innovative lines, beautiful details, and a wide variety of products with user-friendly features. Fine and minimalist lines ensure easy cleaning, while a broad range of design, color and material options provide greater freedom in designing user experiences. The innovative style of the Conran series addresses elegant homes as well as luxury buildings and hotels.

Juno Classic accessories

The perfect appearance of the series is completed with gold, copper and chrome accessories. You can use chrome for a modern elegance, gold plated or copper coated accessories for a rather classical touch.

Origin

Designed by Design Studio VitrA

Origin portrays a delicate minimalism. The collection differentiates from the ordinary with its simple slenderness: Precise edges, fine details, and noble colours. By challenging the existing perception of faucets and accessories, Origin offers an integrated and charming final touch to the bathroom.

Integra

Bathroom Furniture Icon Guide

Wood veneer

Furniture surfaces are genuiene wood veneer or composite veneer.

Motion sensor

Bathrooms are now more comfortable with lighting systems that detect motion and activate illumination.

Touch sensor

Without any requiring on-off button, touch sensor can react the user by just touch.

Ambiance LED lighting

With ambiance LED lighting stylish atmospheres can created in the bathrooms.

Sanded LED lighting

Sanded LED lighting provides a functional use by illuminating the user's face thanks to the light hidden under the sanded mirror.

Armature LED lighting

User face can be clearly illuminated thanks to strong LED light of armature LED lighting.

Interior LED lighting

The interior lighting options ensure that the storage space of the furniture is bright during use.

Anti fog mirror

With its anti-fog mirror models, VitrA offers solutions that makes life easier.

Magnifier mirror

Magnifying mirror offers versatile functionality for differend needs.

Bathroom Furniture Icon Guide

Double mirror

Double mirror models offer comfortable and elegant solutions for bathrooms.

Soft-closing

The gently slowed movement of drawers, doors and lids ensure silent operation and enhance safety for children or elderly users.

Push to open

Designed without handles for an uncluttered symmetrical look, furniture doors and drawers are easily opened with a gentle push.

Full extension

Full extension drawers offer ease of use and optimum utilization of storage space.

Special needs

VitrA bathroom products designed to accommodate seniors and people with special needs are wheelchair accessible and provide enhanced convenience in the bathroom.

Power plug

Installed inside cabinets, plugs offer practical and elegant solutions for bathrooms.

Glass shelves

Glass shelf models create elegance and functionality in bathrooms.

Horizontal / Vertical use

Can be used horizontally or vertically depending on needs.

Shared Intimacy

Designed by Terri Pecora in collaboration with Design Studio VitrA, Plural offers the feeling of a vintage living room, inspired by the iconic mid-twentieth century look. Light and airy furniture is creatively embedded into the bathroom environment, introducing a welcoming domestic space where users can share time with others.

Plural's refined design language creates an atmosphere of sensual luxury. With an aesthetic mix and match of forms, finishes and colours, it brings objects and people together in a delightfully harmonious bathroom environment.

Voyage

Designed by Arik Levy

NATURAL OAK FOREST GREEN

A space for a peaceful mind

Designed by Arik Levy in collaboration with the Design Studio VitrA, Voyage is a system offering new possibilities for a peaceful mind. Motivated by the premise that time spent in the bathroom is not just a physical experience, but rather is an interval, Voyage creates a space where the mind and body meet, where the emotional and spiritual aspects of an individual's existence are stimulated.

Understanding that this most human personal experience deserves an individualised space, the product range offers the tools to customise this area and enhance the spiritual experience.

A system that evolves

Voyage offers a system that evolves and adapts to changing needs and desires over time. It is easy to add and remove elements, each additional unit helping to transform the existing space for the next chapter of your life. This flexible, comprehensive system minimises the risk of mistakes and enables solutions to permanent and semi-permanent needs, always leading to a visually pleasing new result.

A canvas for more

Voyage is designed as a toolbox. Extensive size and colour options allow users to construct their very different and preferred set-up. The bathroom can be seen as a blank canvas with Voyage offering surprisingly versatile options for creative minds in search of the most blissful spaces.

Design Studio VitrA

PATTERNED BLACK OAK

SANDED LED LIGHTING

SOFT CLOSING

Silent gracefulness

Created by Design Studio VitrA, grace shapes the Origin Collection's minimalism. A systematic approach that complements and underlines the bathroom atmosphere, Origin is a meeting point for mixers, accessories, shower systems and counter solutions. Subtle lines, sleek designs and unmatched colour alternatives create a wealth of choice in sanitary ware, and lead to a truly customisable bathroom environment.

A shelf system like no other

Everything that is needed in the bathroom can be organised on shelves and in units that complement the graceful design. Units with integrated drawers allow quick access to needed items.

Bathroom units can be easily customised to different sized spaces, thanks to a choice of modules and dimensions. In 30- and 60 cm alternatives, the shelves can be combined with other shelves or side units in 60 cm or 90 cm.

The natural allure of elegant simplicity.

Prestigious Metropole series by the award winning design group NOA adds to its attraction with a new range of bathroom furniture. High-tech and trendy, Metropole stands out for smart functionality in tastefully restrained forms. With its wide range of Infinit and ceramic washbasins, the series offers nearly endless possibilities for a restful and inspiring bathroom decor.

Metropole bathroom furniture targets different tastes with white and black combination.

Metropole washbasin units are compatible with two basin options: Infinit vanity and ceramic bowls. The pure white colour option of Metropole furniture contributes to an elegant natural bathroom decor.

Different dimensions for maximum ease of use: Infinit vanity washbasins with 80, 100, 120 cm width options complement the graceful lines of the washbasin unit. The double drawer vanity unit with acrylic glass front is wide enough to neatly store anything you want with easy reach.

Tall and mid units with white acrylic glass doors offer ample space for all bathroom items.

Brave simplicity

Designed by Claudio Bellini in collaboration with Design Studio VitrA, Equal truly offers a bathroom with character. Simplicity must be treated as the outcome of a brave sophistication, and as a design approach, it is the human shortcut to creating equilibrium within the clutter of an urban environment. This is the balance Equal creates by welcoming diverse needs and desires.

GLASS SHELVES

Common sense, uncommon bathroom.

The stunning design of Sento Collection is both charming and practical, meeting the individual needs of each bathroom. Sento's various modules present diverse and exclusive solutions for every bathroom to make them cozier and tidier. The collection offers various colours and forms for different tastes and preferences. Both mirror cabinets and standard mirrors offer an LED illumination feature.

Impressive pieces, functional solutions.

The washing machine unit also has a closed cabinet to neatly store anything you want. In this section, there is a laundry basket and shelf for storing cleaning materials. The elegant upper unit provides extra storage with its drawer and shelf details.

The tall unit is suitable for storing different size of cleaning materials. Air vents inside of the cabinet prevent humidity by providing good ventilation.

Smart solutions for bathrooms.

Sento's modern lines and excellent colour harmony are dazzling. Moreover, the series offers a large range of products with suitable solutions for smaller areas.

The tall unit, which is especially designed for functionality, has shelves for storage, a laundry basket and power plug, and a special area for storing personal care products.

The washbasin unit has a compact form that is suitable for smaller bathrooms and it provides extra storage.

The series offers various colours and forms for different tastes and preferences. Both mirror cabinets and flat mirrors offer LED illumination feature.

LED LIGI

SOFT CLOSING

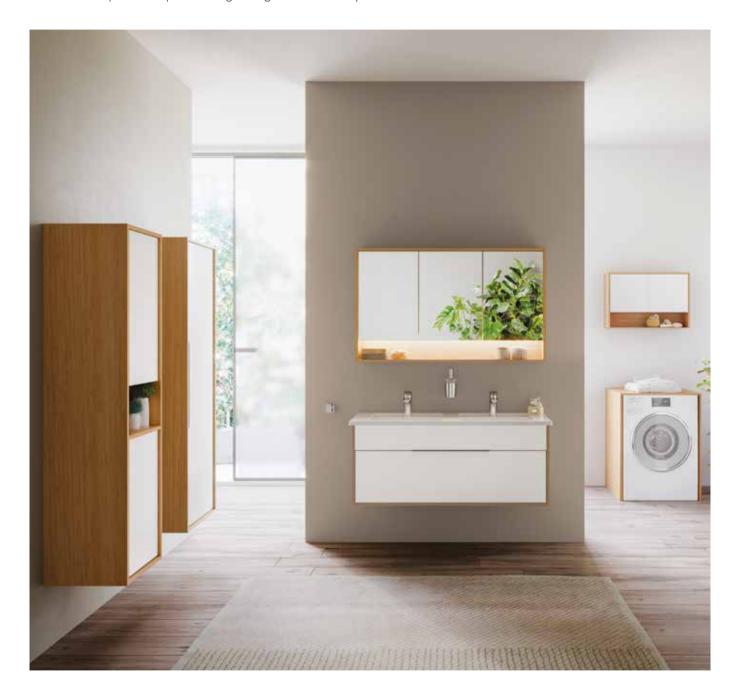

Spacious bathrooms.

Integra Collection simplifies everyday rituals and brings comfort to the bathroom. Designed to fit any size of bathroom, the collection provides space-saving storage areas with style.

A tall cabinet with cleaning unit provides functional solutions and the upper cabinet, which can be placed on the washing machine or WC pan, creates new choices for storage space in your bathroom.

The mirror with open rack adds comfort; the dual colour instills elegance. Functional solutions include a standard depth laundry basket with or without drawers, and a narrow tall cabinet for effective use of small spaces.

General information

- Eczacıbaşı Building Materials Co. always keeps the rights to make any changes on the product.
- In case bath filler will be used for appropriate bathtub models, the drilling on product body can be done before the shipment if the code/model of the faucet is provided at CRM note at the time of order.
- For faucets usage on bathtubs please check page 1296-1297. Application areas shown are for body bathtubs and may vary for whirlpools. Contact VitrA officers for such applications.
- Since solid wooden items on products are of natural wood, colour and texture may vary.
- Complementary wooden items (panels, shower mattes, shower system, etc) should be installed in enclosed
 areas avoiding exposure to outside weather conditions. Other wise, the product shall become out of spoce of
 guarantee.
- Check product data sheets and technical documents for detailed information on installation.

Zest shower unit	1118-1123
Roomy shower unit	1124-1126
Roomy Neo shower unit	1127
Cosey mini shower unit	1128

Compact Units

Functional, multi-purpose, very practical...

VitrA systems make other showers seem as crude as washing yourself with a bucket and garden hose. Units offer a range of functionality and optional features (such as massage and steam bath) that transform your shower stall or bathtub into a fountain of renewal. Having a shower will never again seem like a chore.

Cosey mini

Ergonomic design, elegant look.

VitrA's new Cosey mini Ablution Unit provides an ergonomic and compact solution for performing ablution comfortably.

With its hygienic acrylic floor, ergonomic seat, functional bars and personal items shelf, Cosey mini is ideal for public buildings as well as personal bathrooms.

COMPACT UNITS				
Unit with	Unit with Length		Height	Serie name
Poetangular Chowar Tray	155	120	220	Lara (pg; 1114)
Rectangular Shower Tray	120	90	220	Lara (pg; 1115)
Square Shower Tray	100	100	220	Lara (pg; 1116)
	90	90	220	Lara (pg; 1117)

- For VitrA Compact Systems to be installed & its intervention, there is a need of emtpy space of 40 cm nearly or in front.
- It is not recommended VitrA Compact System to be placed on U shaped wall. Please ask VitrA Bathtub responsables for guidance if you need installation to U shaped wall.
- For system information & specifications please refer to VitrA Bathtub Compact Systems Guide Book.

! Before installing VitrA Compact Systems, make sure that:

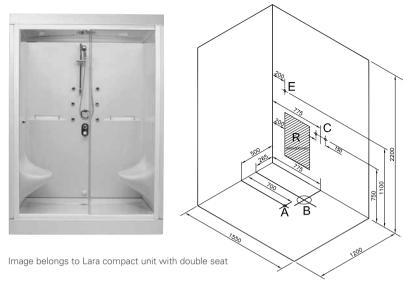

- The ceiling is minimum 2,3 m high.
- The water inlet level is minimum 80 cm high.
- The water outlet pipe is of 50 mm.
- The electronical system is running with 220 Volt (with earth connection).
- The local water pressure is in between 3-6 bars.
- The floor should be tiled of even.
- The walls are straight and the installation corner is exactly 90'.
- ullet 2 years warranty is offered for all showering areas product. Please check general information on page 1281
- Please check installation guide for page 1112 1113

COMPACT UNITS

Istanbul

Designed by Ross Lovegrove

Pure and natural organic forms.

Inspired from Istanbul's mixed culture and traditions but a series of future ... Istanbul, Ross Lovegrove, almost defines beauty again. Completes the series with bathtub products.

Water Jewels

Designed by Matteo Thun

Sparkling elegance, a fabulous design!

With its oval acrylic structure, water-resistant wooden panel and special pop-up waste & over ow set, the Water Jewels Bathtub offers an exclusive bathroom experience.

4 Life

Ultimate comfort in impeccable style.

The 4 life Series, offering various alternative shapes, stands out with its aesthetic design.

Combo

Twice the function, twice the pleasure.

Regenerating bathing experience from all aspects... While a purifying and reviving shower ensures that you start the day full of energy, you can get rid of the fatigue of the day with a lengthy and relaxing soak in the bathtub.

You can enter the bathing section of Combo through its door, where you will be able to enjoy the pleasures of both a shower and a bath, with ease.

VitrA

Shower Trays

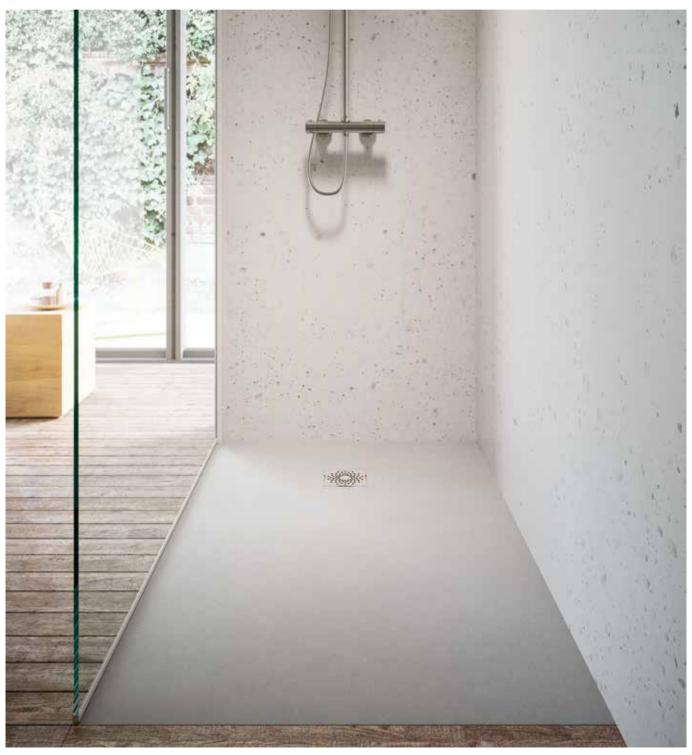

V-Stone	1191-1204
Leaf	1205-1225
Seat	1226
Smooth	1227-1233
Т	1234-1248
Optimum Neo	1249-1255

V-Stone

Reflections of nature

V-Stone shower trays that are produced from solid stone material carry sense and appearance of natural stone to your shower area with its textured surface.

V-Stone has Taupe, Anthracite, Grey and White colour alternatives and syphon covers with matching colours. Size options include; 90x90 cm, 120x90 cm, 140x90 cm, 100x80 cm, 120x80 cm and 140x80 cm.

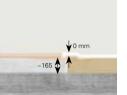

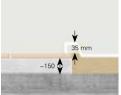

T Series

Modest lines.

Unlike monoblock shower trays, monoflat shower trays have 6.5 cm. The T90 series, which came out as the continuation of the Design Turkey award winning T70 series, is compatible with all bathrooms with its modest lines and varied sizes.

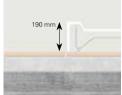

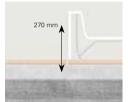

Zero Surface

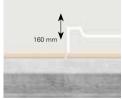

Flat

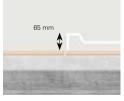

Flat Paneled

Deep Paneled

Monoblock

Monoflat

Monoflat can only be installed by breaking the siphon area, and as a result, offers the possibility of easy installation as a result.

Seat

Elegant choice for comfort.

The integrated seat that makes Seat uniquely comfortable is as beautiful as it is handy and ergonomic.

V-Flow

Designer drains for bathroom refinement.

With its continous, aesthetic and modern look, V-Flow shower channel complements the elegance of residential areas and hotel rooms. Zero to surface assembly makes the V-Flow shower channel almost invisible, providing ergonomics and easy cleaning. To create distinctive and elegant alternatives in your residential and hotel projects, V-Flow is available in matte, high gloss and gold finishes.

V-Flow

Aguawall

Showering areas icon guide

VitrA antislip

Developed to offer safety against the risk of accidents. Bathtubs and shower trays treated with VitrA antislip will not get slippery over the years as a result of frequent contact with soap and water.

Special needs

VitrA bathroom products designed to accomodate seniors and people with special needs are wheelchair accessible and provide enhanced convenience in the bathroom.

General information

- Eczacıbaşı Building Materials Co. always keeps the rights to make any changes on the product.
- In case bath filler will be used for appropriate bathtub models, the drilling on product body can be done before the shipment if the code/model of the faucet is provided at CRM note at the time of order.
- For faucets usage on bathtubs please check page 1298 1299 Application areas shown are for body bathtubs and may
 vary for whirlpools. Contact VitrA officers for such applications.
- Since solid wooden items on products are of natural wood, colour and texture may vary.
- Complementary wooden items (panels, shower mattes, shower system, etc) should be installed in enclosed areas avoiding exposure to outside weather conditions. Other wise, the product shall become out of spoce of guarantee.
- Check product data sheets and technical documents for detailed information on installation.

Usage of wooden complementary items

General warnings about usage of wooden complementary items

- Colour and texture may vary since solid wooden parts of products are made of natural wood.
- Complementary wooden items (panel, matte, shower system etc.) should be installed in enclosed areas. Products
 intended for use at home or in enclosed areas should not be used in areas subject to outside weather conditions,
 under direct sunlight, rain, moisture etc, at gardens or in areas, washed with water, in order to preserve its lifetime.
 Otherwise, the product shall become out of scope of guarantee.
- Wet bath fibers left on product and the liquids leaking from soap and shampoo bottles may result in colour changes on product.
- Do not use hydrochloric acid, abrasive/ powder detergent, soft soap and hard /scratching cleaning sponge for cleaning wooden items. Avoid contact with bleachers, organic solutions, paint removers acetone and other solvents.

Key notes about usage of wooden panels

- Wooden panels should not be left wet for a long time, it should be dried with cloth after each usage to ensure a better and longer lifespan.
- Bathroom floor should be cleaned by wiping to avoid contact of product with plenty of water.
- Wooden wipers are not recommended since wooden panel is varnished.
- Use of a soft cloth and glass cleaner in cleaning of wooden surface is adequate. Wipe the cloth in the direction of coating, not with circular movements.
- Installation of wooden panels should not be done at the same level with bathroom floor to avoid damaging of wooden panels from water accumulating on the floor during bathing or cleaning.
- Use of enclosure on wooden panel products should be recommended. It should be ensured that water splashed from the edges of bathtub, walls or shower heads during bathing is kept on the surface of enclosure glass and flowed into the product.
- You can refer to VitrA Bathtub Officers for removal of scratches appeared on the surface of wooden panel as a result
 of accident and stroke.

Considerations about usage of wooden shower mattes

- Wooden matte is made of natural iroko wood and iroko wood is among the most water resistant woods.
- As wooden matters are natural materials, it is likely to release its own sap during usage.
- Since wooden mattes are suitable for raw use, they are supplied with no varnish or finish and should be cleaned with a soft cloth and warm water after each use. Otherwise, unmelted soap products, dirt and limewater create a thin layer on wooden base making it hard to clean up.
- In addition to the cleaning after each use, you can opt to use wooden surface cleaners recommended for varnish and finish-free surfaces. You can supply such wooden surface cleaners from DIY stores.
- Usage of surface cleaners are recommended at every 6 months and the maintenance should be completed by using teak oil. This application is crucial in case the wooden parts are subject to sunlight in the bathroom.

Wooden parts and products used

Colour	Material	Product used	
	Teak with brown oil	4 Life Pure - collectible wooden matte 4 Life Cocoon - wooden step
