

Vitra

Taps & Shower Systems

Vittra

We progressively invest in essentially
human spaces - the bathrooms.

The complete bathroom

Exploring physical and emotional needs, VitrA invests in design to produce every essential element in the bathroom.

It's all about inspiration

It all begins with questions posed by the design discipline to understand needs, desires and choices. Designed by VitrA, an extraordinary wealth of attractive combinations help satisfy these needs and desires.

High powered perfection

Seven cutting-edge factories and plants in Turkey and Russia create sophisticated designs and maintain extremely high standards whilst progressively reducing VitrA's ecological footprint.

Collaboration with designers

VitrA works with acclaimed industrial designers from around the world. Not only does the collaboration with these top talents improve product functionality, but it also introduces an entirely original range.

VitrA across the world

Bathroom designs greet customers around the world through 2000 sales points in over 75 countries, including 150 exclusive VitrA showrooms in Istanbul, London, Cologne, Moscow, Dubai, Mumbai, Delhi, and other major cities.

Technology lights up the future

The VitrA Innovation Centre serves as the headquarters of the brand's R&D activities with a strong engineering team, leading the bathroom industry with new solutions and technologies.

Improved personal hygiene

VitrA's continuous research into human health introduces new technologies for improved hygiene in the bathroom. These solutions raise the personal hygiene experience to a new level.

A pledge to the future

VitrA embraces Blue Life, a set of guidelines devised to mitigate our impact on the environment, and is held as a production, design and management philosophy.

Istanbul

Organic essence of form

Designed by Ross Lovegrove in collaboration with Design Studio Vitra, the Istanbul Collection is an investigation into the essence of form mediated by water. It is the bathroom imagined as a confluence of natural energies expressed in primal form. A sophisticated approach inspired by nature distinguishes the products in the series.

The organic, sculptural shapes and exquisite lines of Lovegrove's inventive design combines with Vitra's mastery of production technologies to create a uniquely uplifting user experience in public and private bathrooms.

Integrating elements

The Istanbul Collection taps and mixers are inspired by the natural beauty of tree branches and pebbles. Istanbul taps and mixers are designed to link people and nature.

Single touch

With its single-touch operation to turn the water on and off, the hi-tech Istanbul AquaTouch basin mixer was designed to use water and energy efficiently for public areas in particular.

Purifying the body and soul

Reminiscent of the natural combination of six pebbles, the Istanbul showerhead creates a purifying shower experience for the body and soul.

Memoria

Unique and modern

Designed by Christophe Pillet in collaboration with Design Studio Vitra, the Memoria Collection's intense scrutiny of human needs in the urban environment redefines the bathroom as a habitat. Utilising the geometric lines of urban architecture, the collection offers functional solutions to suit the essence of bathroom rituals. Its distinctive designs enhance the modern life style.

Distinctive lever design

The refreshing elegance of Memoria taps and mixers stems from their delicate lines and graceful curves. Rounded handles provide an alternative to grip levers, fashioning the contemporary look that distinguishes Memoria taps and mixers.

Vitra

A shower system that forms an unbroken surface

A singular technical solution becomes a silent partner in modern life: the Memoria shower column is designed to be tiled over. Combined with a concealed shower valve, it creates an unbroken surface in bathroom design. Ambient lighting and waterfall options present the user with a unique space in urban life.

Origin

Silent gracefulness

Created by Design Studio Vitra, grace shapes the Origin Collection's minimalism. A systematic approach that complements and underlines the bathroom atmosphere, Origin is a meeting point for shower systems, taps and mixers. Subtle lines, sleek designs and unmatched colour alternatives create a wealth of choice in sanitary ware, and lead to a truly customisable bathroom environment.

Distinctive harmony

The vast variety of the Origin Collection produces distinctive harmony in every bathroom. Over 200 products, all neat designs in a broad palette of colours, finishes and sizes, appeal to diverse tastes and habits as they offer versatility for washbasin, WC and shower areas.

Exquisite colours

Distinguished by a choice of colours in different materials, bathrooms featuring items from the Origin Collection instantly appear more stylish, more exclusive.

Origin mixers and shower systems come in a striking array of chromes, coppers, matt blacks and brushed nickels. A special coating technology gives every item in the collection a beautiful finish, good for years to come.

Different heights

With a range of mixers in different heights to match any one of several washbasins, Origin's focus on comfort further enhances versatility.

Distinctive bathroom designs

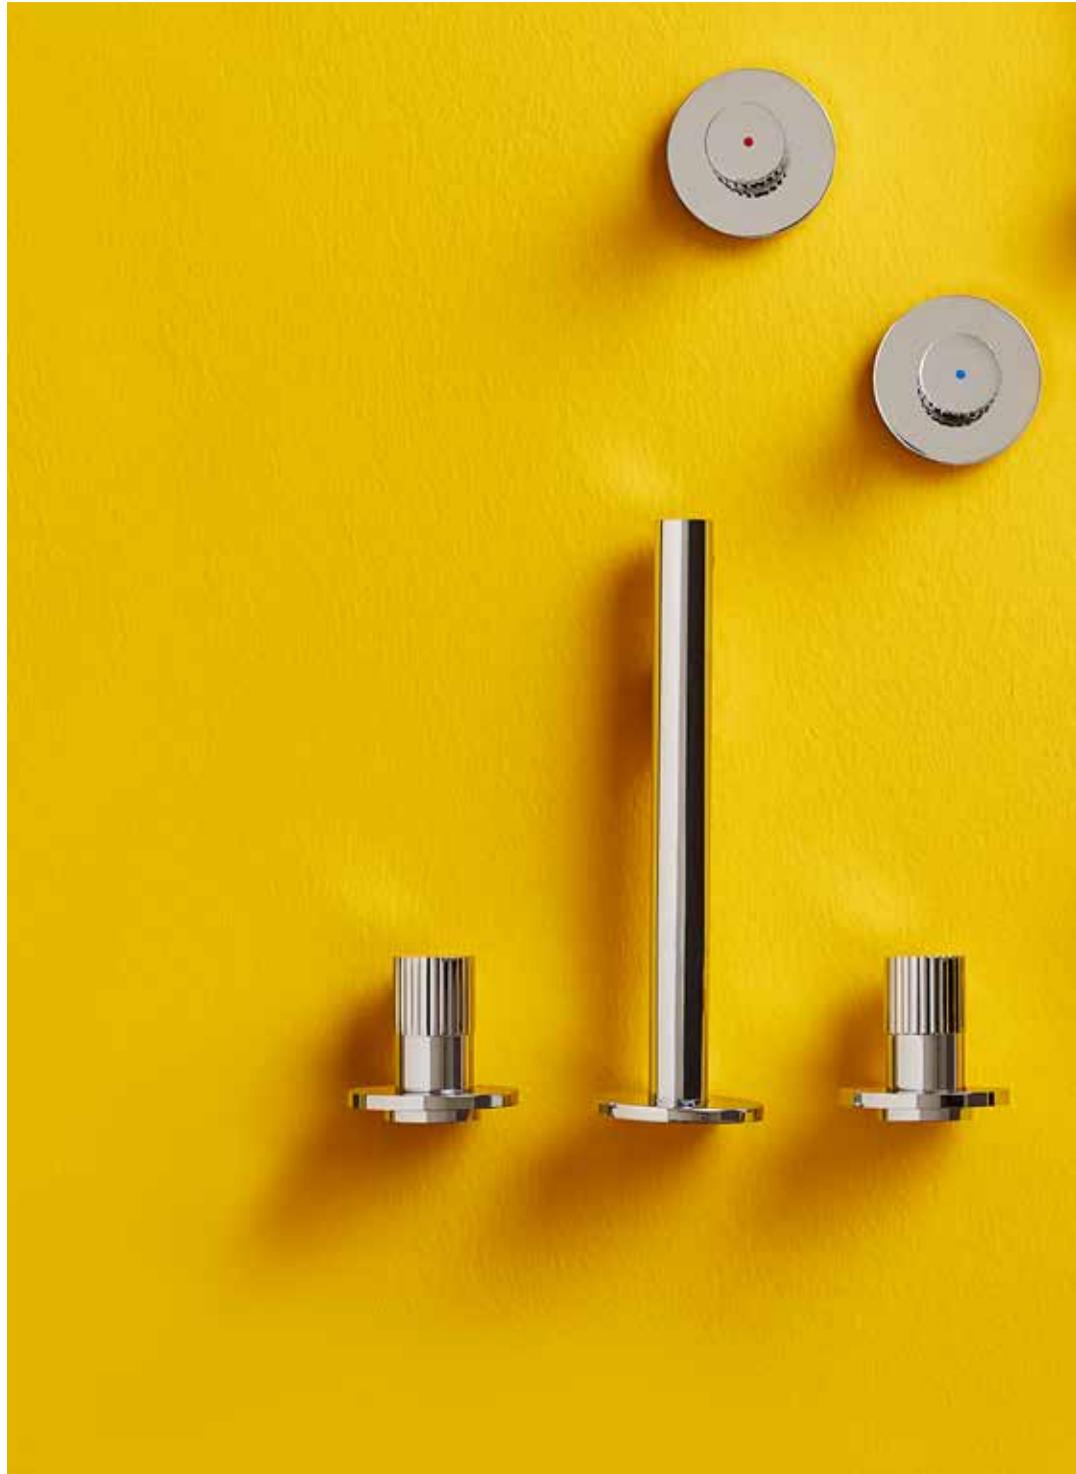

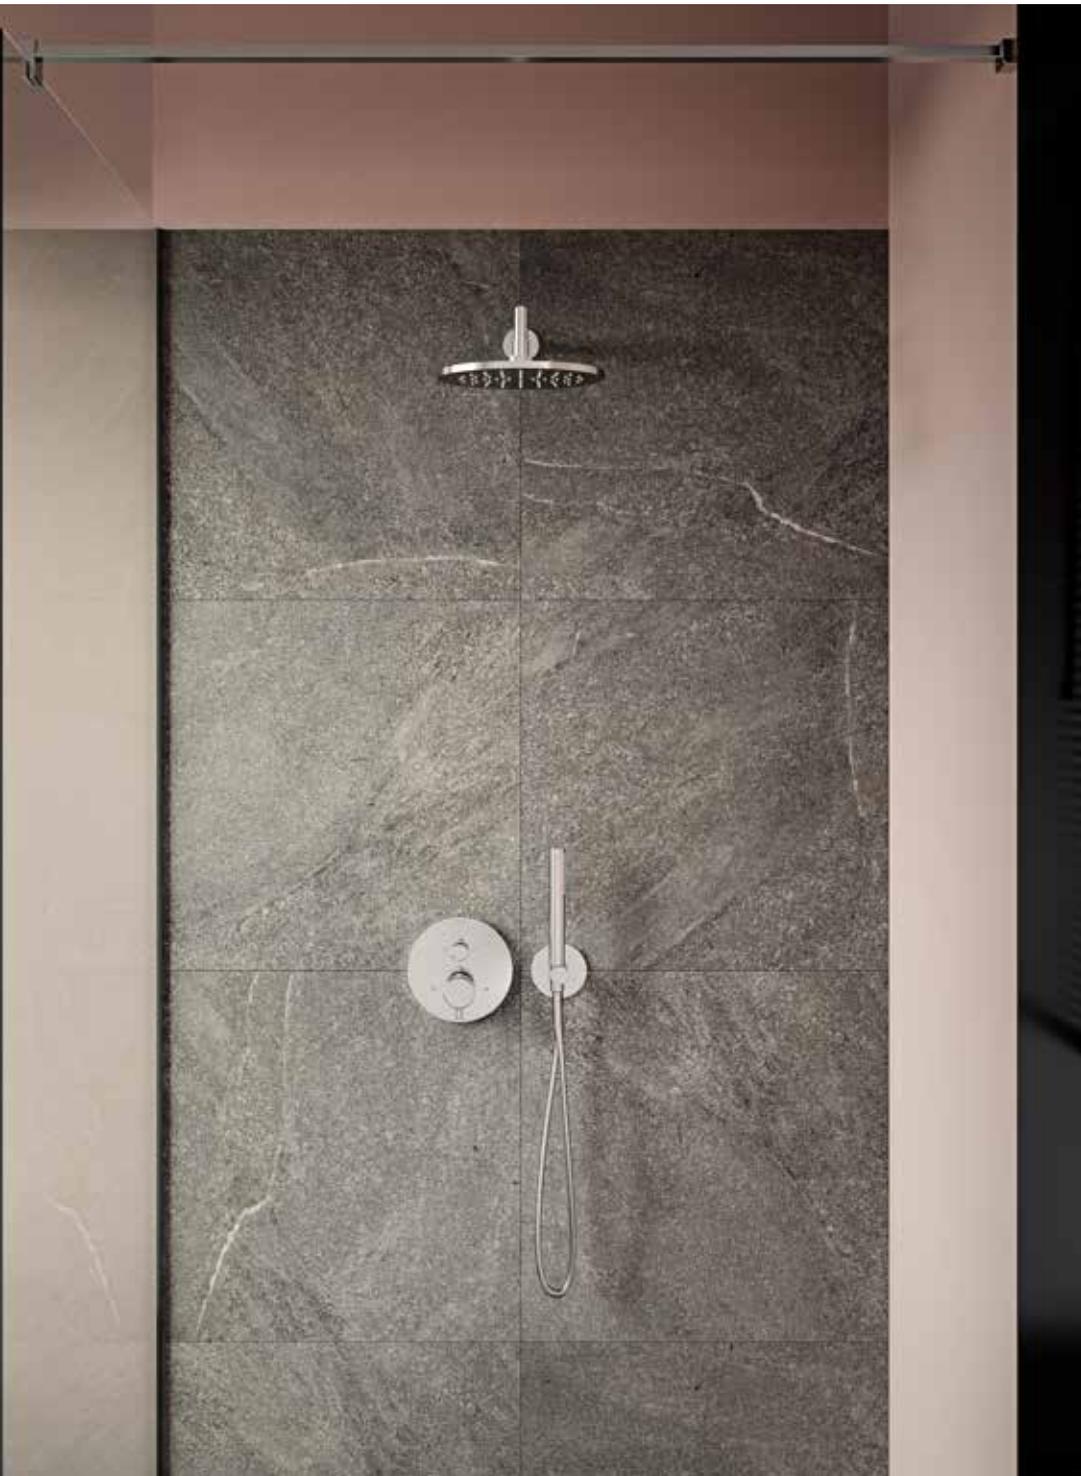

Origin's stylish mixer options to address different needs and preferences offer flexibility in distinctive bathroom design.

Subtle excellence

Origin's striking appeal is further bolstered by the impeccable craftsmanship evident in the valves, coupled with the neat lines of the mixers.

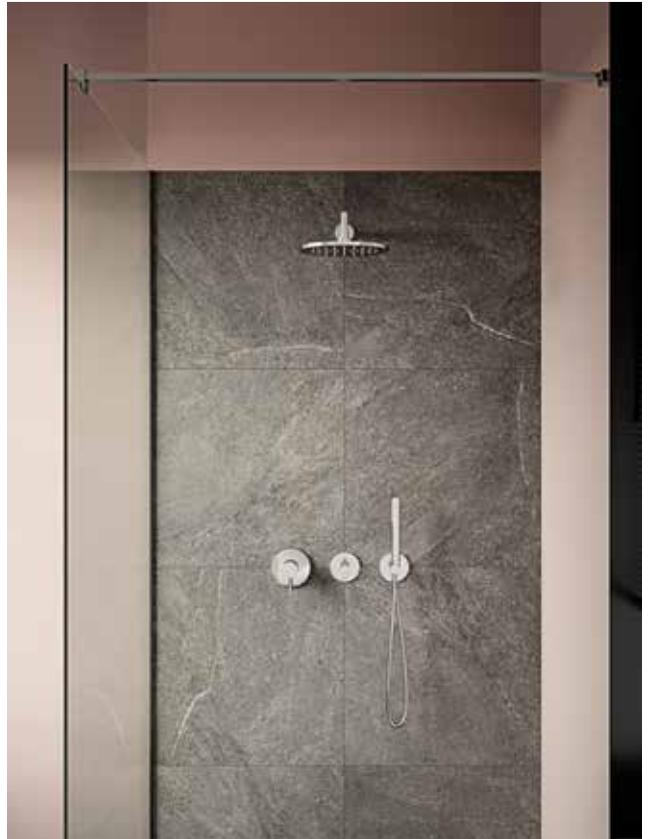

A customisable mixer system

A number of Origin solutions to the showering area transforms showering from a daily routine into a personal relaxation session. Showerheads and hand showers and mixers can be arranged to suit individual habits.

The built-in thermostatic mixer option in the collection maintains a constant temperature, thereby making safety and comfort an indivisible whole.

Shower systems with massage jets

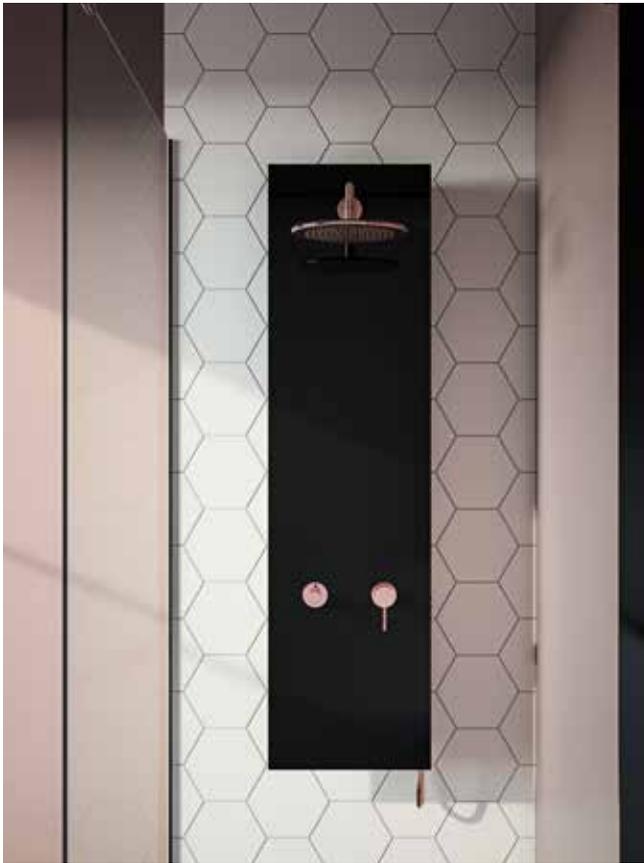

The Origin shower systems, which combine sleek design with glass in a choice of colours and concealed shelving, similarly bring together elegance and comfort into the showering area.

Versatility characterises the Origin shower systems, combining glass and mixer colours: white with chrome, black with copper, and taupe with black. Adjustable massage jets and the rain showerhead option improve the showering experience.

Hidden solution

Origin defines a new standard for bath mixers, concealing the spout to eliminate the risk of knocking into it by accident, and thereby improving room in compact wash areas. One single move is all that is needed to alter the direction of the flow, as the spout can swivel 45°.

Shower Systems

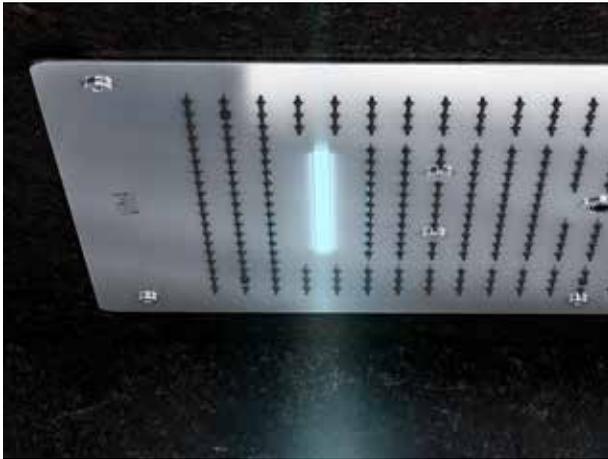

Perfect relaxation, ultimate shower indulgence

An immersive, refreshing and invigorating shower takes the user on an internal journey. The chromotherapy shower additionally equipped with a number of flow options intended to help physical, emotional and spiritual relaxation transforms the bathroom into a personal spa.

Fitting seamlessly into the ceiling, the sleek chrome multi-functional built-in shower heads support modern bathroom design.

Square or rectangular, their large surface areas and spray functions enable maximum water performance for a soothing shower. For an even more indulgent experience, all three modes can be run at the same time.

Waterfall

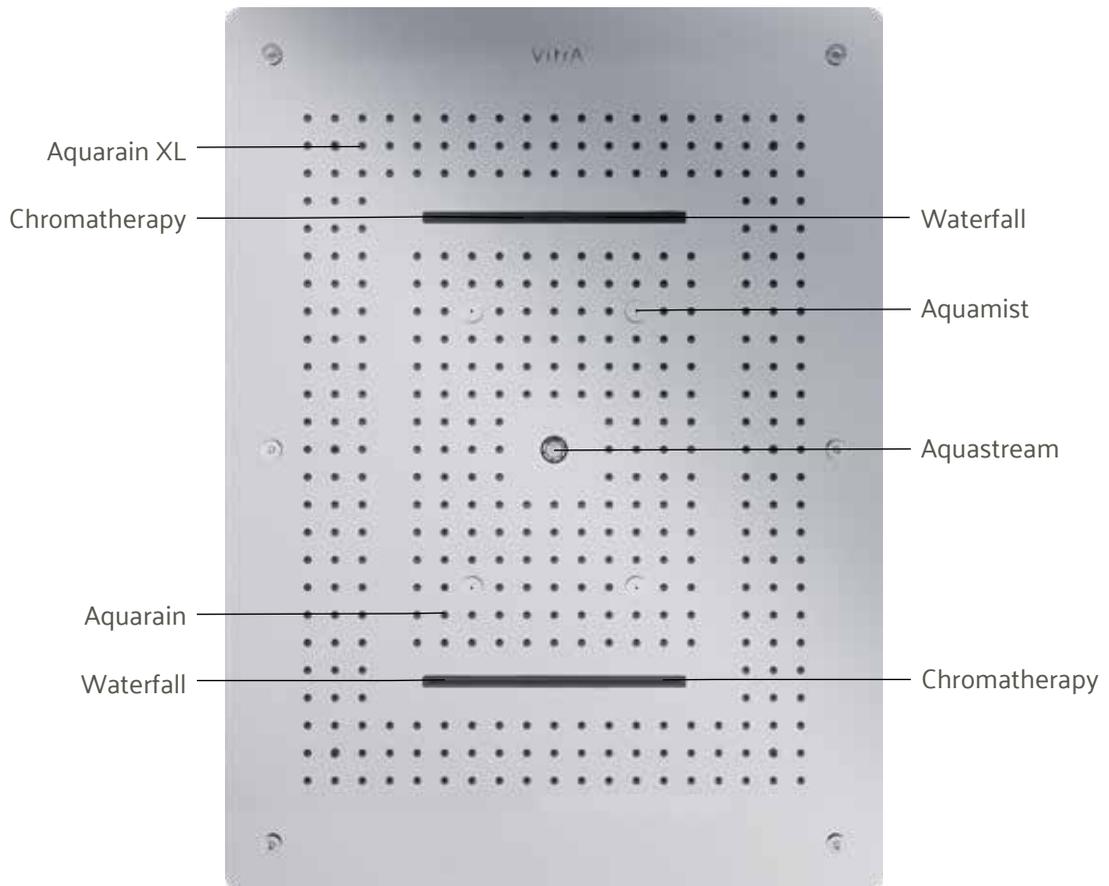

Aquamist

Lite 4F, 50 x 50 cm

Lite 5F, 60 x 80 cm

The sleekest shower

Its slim profile and large surface make Lite the perfect showerhead to recreate the feeling of rain in the bathroom. The silicon nozzles simplify cleaning limescale with a light touch, guaranteeing brand new performance for a very long time.

The natural beauty of water

Refined and brought to the bathroom by Strato, the natural beauty of water doubles the pleasure of taking a shower. The waterfall mode replicates its namesake's natural flow, and the aquarain mode refreshes and relaxes like summer rain.

The power of nature in a shower

The Cascata shower head brings the power of nature to the bathroom, reaching every part of the body like a waterfall, calming and relaxing as it refreshes naturally.
